The characteristics of acceptable rhymes:

Rhymes and songs are very useful. One should know what makes a song or a rhyme suitable for a beginner age group and interests and the learners level of English. A song or a rhyme should be in simple modern language, short, easy to be repeated and it serves a purpose, i.e. relates to the topic under study. And it should not have too many new items of vocabulary and grammar. A rhyme should be culturally acceptable, i.e. it does not contradict the culture of the native language.

Why rhymes should be taught?

- A.** They help pupils to speak the language fluently.
- B.** Young learners enjoy singing and playing.
- C.** Rhymes reinforce the target language.
- D.** The stressed syllables are taught correctly.
- E.** The simple grammatical structures are reinforced.
- F.** The language patterns, which are commonly used, are taught successfully.

How a rhyme is taught?

- A. Sing or simply say the rhyme once or twice to the pupils accompanied with suitable actions.**
- B. Try to know that the pupils have understood what the rhyme is about.**
- C. If they cannot understand the meaning, try to explain the rhyme in a very simple language. Use any needed visual aids.**
- D. Say the rhyme again more than once, and let them repeat after you.**
- E. Keep repeating each rhyme during regular lessons, revision lessons, and any other chances.**
- F. As an assignment, ask pupils to find other rhymes, and choose the simple ones to be repeated with the class, if they are relevant to the syllabus.**

A Brief Display of Some known Methods of Teaching English as a foreign language:

1. The Grammar Translation Method:

- **It places significant emphasis on reading. It makes an extensive use of the native language of the learner to explain and discuss the target language.**
- **It also concentrates on direct instruction of grammatical rules and memorization of isolated words. Translation from and to native language is a major practice in this method.**

2. The Direct method:

- **The direct method emphasizes the use of the target language in the classroom.**
- **The native language is not used at all. The target language is dominating.**

3. The Audio – Lingual Method: (Aural – Oral)

- **It is a reaction to the Grammar Translation Method which concentrates on reading and writing skills. The Audio-lingual method views language as a set of habits formation through repeated exposure to specific forms.**

4. The Suggestopedia (Suggestology):

- **The instructional objective of this method is defined in semantic and communicative term. Students initiate the foreign language learning with the assistance of their language teacher.**

5. The Total Physical Response Method:

- **It is not an actual method. Rather, it is a technique. It attaches great importance and emphasis on listening and comprehension skills.**

6. The Communicative Approach:

- **It is known as Functional National Approach. The primary goal of Communicative Approach is to enable Foreign Language learners to communicate on the target language fluently and freely.**

7. Cognitive Approach:

- **It pays great attention to conscious instruction drills rather than to mechanical ones. Rules of grammar are taught dialogues and are presented in a sequential basis.**

8. Natural Approach:

- **It views language as a means of inter personal communications.**
- **There is no one method for all situations. Teachers should be aware of these methods and approaches in order to choose from them to build their own method of teaching. Each instructional situation is unique. To be effective, the teacher should be eclectic.**

Dear colleague, REMEMBER
